VERMILYEA, NONNER, STRICKEN

Had Been Reeve of Township For Nearly 40 Years

In the person of Mr. Nathaniel Vermilyea, which occurred at an early hour this morning at the Belleville Hospital, Belleville, Ontario, the late Mr. Vermilyea was about the city apartment in his usual manner, but on Friday he was taken ill and on Monday was removed to Belleville hospital after being in an attack of pneumonia for several days.

On the 25th day of October 1884 deceased was born in the township of Thorvald, where he resided continuously until two years ago when he retired from active farm life and made his home in this city. He was a son of the late Mr. Solomon Vermilyea of New York State and who was a United Empire Loyalist. His mother was formerly Miss Elizabeth Jones of Ontario Township. In early life Mr. N. Vermilyea after graduating from public and high school entered the teaching profession and at one time was so engaged in this city. Later in life he followed the occupation of farming in which he was successfully successful. His farm in Thorvald Township was one of the best in that county and was stocked with the best of cattle and horses. Mr. Vermilyea in early life took active part in municipal politics and his worth was recognized by the fact

Booleggers Busy On Port Hope Streets

Port Hope, Oct. 2.—Burling from the number of young men who were taking up more than their share of the pavement on Saturday night, it would naturally think that the Ontario Temperance Act had been repealed. A local resident in authority for the statement that our bootleggers are in operation on our main street and are doing a thriving business. It would require the services of a Sheriff, Lincoln to round up the whole gang and Lincoln's Inspector should be sent here. Two years ago, we sent out of their town, were secretly able to get along their trade and this is becoming quite a common occurrence. It must be stopped and Chief of Police Brown will endeavor the support of our citizens in making the clean up.

Little Unemployment

Everybody who wanted to work all summer, and if they have not, they are not doing it, they should not be in the situation. The chief complaint was, "The man who had the job," who had the job, the police station were asked by request, is pointed out by the police station in the morning as he is classified as a "trainee". Chief Kidd explained that he has been unable to secure men often this summer to meet the demands of employers. He asked him if he could supply them with men. Chief Kidd explained that the Government was simply in failing to pass the anti-labor law which, if passed, would control that class of men known as "trainees" as "millions" to find regular employment.

Here and There

The total quality of our fish landed on both the Atlantic and Pacific coasts during the month of September was 1,072,000 lbs. valued at \$172,140 as the fishermen, compared with 1,072,000 lbs. valued at \$172,140 in July 1922. Cattle in north Alberta's livestock have been lower since the summer when the live stock industry have increased to the highest level in the last few years. Carrying large consignments from the west, the Canadian branch of the Canadian Red Cross, the Canadian Pacific S. Empress of Russia was the first ship after the Canadian coast to arrive with relief for the stricken famine stricken people of Japan.

THREE REEVE CLAIMED BY DEATH SINCE

Since the death of the County Council has named three Reeves of Hastings County, namely: W. C. Cassidy, Reeve of Monticello and Herschel Township, John Green, Reeve of Enniskillen, and McGowan Township, and Nathaniel Vermilyea, Reeve of Thorvald Township.

OPPOSE BURNING OF BIBLES IN ROME

At Roman Catholic Church on Sunday evening the Rev. Rev. T. Barnard preached a sermon relating to the burning of Bibles in the streets of Rome, which incident occurred to the month of June. At the close of the sermon a resolution was unanimously adopted protesting against such an act. At a meeting of the Association held in the city yesterday a similar resolution was unanimously adopted.

COLLEGE INSTRUCTOR, SAVED FROM DEATH

Kingston, Ont., Oct. 2.—But for the prompt action of James Pilgrim, of the St. Albans Apartments, Block 1, on an automobile stuck on the foot of the cliff of the Royal Military College, would have been a tragedy. Mr. Pilgrim, alarmed by the smell of gas, found Prof. Mackenzie in an automobile stuck on the foot of the cliff. The Professor was rushed to the hospital, then sent, with the aid of a policeman, was revived. It is thought he was in the act of entering of the gas heater in the bath room when he fainted and fell to his death.

Renfrew Meets Danish Prince

Calgary, Alta., Oct. 12.—Prince Eric of Denmark called on Lord Renfrew yesterday morning. The royal Danish prince was working as a crew hand on a ranch at Stettin, near Copenhagen, and was on his way to the hotel where he was to be met by Lord Renfrew. When he was met by the latter, the prince was mistaken for a barometer. He was a dark brown skin and a soft, friendly face, and he was dressed in a simple, dark suit. He was known very well at the hotel and had to tell him he was the prince, being allowed to see Lord Renfrew. He arrived shortly before 10 a.m., the hour that Lord Renfrew was to leave for the golf links.

Lord Renfrew didn't start out till 11 o'clock. About 100 men still had gathered at the hotel at 11 to see him. When he did get into a waiting car the crowd had swelled to 300.

11,000 Harvest Hands to Remain

Montreal, Q., Oct. 12.—Exact figures as to the number of harvesting hands who were brought over from Britain by the special low steamship and rail rates which were announced yesterday in Winnipeg are along with the number of those who returned and the latter have made up to her less than four per cent of the total.

Eleven thousand hundred and eighty men were taken to the western fields to the end of September. Some of them are still in the west. In the present month the Canadian and American harvest hands have taken back to the White Star Dominion line 40 and the Canadian Pacific 300.

This movement of departures has almost ceased and steamship companies pointed out to-day that the big fleet stands out, namely, over eleven thousand British men who have come about the severe test of harvesting and the wintering up on the coasted passages.

Capt. Murdoch, Old Sea Captain, Dies

Was Father-in-law of Major Bumpstead

Capt. David Murdoch, known to many in this city, passed away this morning at the residence of his daughter, Mrs. A. C. Lord, of Coldwater, Ont. An attack of pneumonia was the cause of death and the fatal illness was of short duration. Deceased was 71 years of age and until a few days ago was in good health. He was born at Millport, Ontario, Scotland, and for the past 40 years had been a resident of Canada. Capt. Murdoch for 55 years sailed the sea, being engaged in the Maritime Department of the navy. He also served of troops from India to China during the Boer wars. For some time he was in the American Navy. Of late years deceased had lived a retired yet somewhat active life. Deceased was in Bellevue during the recent war taking on considerable interest in the events. His wife, deceased, was some three years ago. Some sons and three daughters survive. The sons are Donald of Toronto, Alexander of Chicago and Neil of California, and the daughters are Mrs. A. C. Lord of Coldwater, Mrs. John Tarnawa of Winnipeg, and Mrs. B. Bumpstead, wife of District Judge of Prince Rupert. The body will be taken to Toronto to be interred in Mount Pleasant cemetery beside that of his wife. Inquest reported and will attend of the coroner. Capt. Murdoch was a member of the Presbyterian Church and a member of the Masonic Society.

COMMUNIST PLOT FEARED IN JAPAN

United Press Dispatch Osaka, Oct. 12.—Papers speaking out regarding the threat of a communist plot to invade Japan in the days following the earthquake indicate that the Japanese government is a Communist plot to invade Japan.

FARMER CHARGES HE WAS ASSAULTED

Wilford Kitchener, farmer, whose address is R. R. No. 1, near Highway, reported to Provincial Police Officer at 1:30 a.m. this morning that he had been assaulted on his own farm.

The names of Kitchener and his wife were in the list of the assailants, who drove into the farm and committed the assault, said, after an arrest. There will be a charge laid.

MADOC FAIRS RECORD AFFAIR

EXHIBITS VARIED

Track Events More Interesting—Many Close Contests

Madoc agricultural fair was held on Tuesday and Wednesday of this week and the attendance was large, especially on Wednesday the concluding day. It was one of the best fairs ever held in this village. The grounds are well adapted for the holding of a fair and are being improved every year.

The exhibits were varied and of an attractive nature. In all of the classes the entries were more numerous than in former years and when placed in position, presented an attractive appearance. Mr. W. J. Hill, the chairman of the society, was in charge and was ably assisted by a staff of competent officials.

There were cattle, sheep and swine were the attraction of many visitors and also poultry and garden. There was also a good showing of poultry, grain, and vegetables.

In the ladies department a few exhibits of dairy work were shown and a few more to come. In fact a few more to come. In fact a few more to come.

A display made by children of the public school was interesting, demonstrating the handwriting of the children. The display consisted of pencil drawing, writing, water color, painting, and various other exhibits.

The exhibits of these were good and the children exhibited excellent work. The prizes were given by the Madoc Cattle Show, Dominion Cattle and Horse Show, and T. H. Thompson, M.P.

Mr. Dwyer was also in charge and was ably assisted by a staff of competent officials.

On Wednesday afternoon the various events were more interesting and attracted a large number of the public.

That Body of Pains

By James W. Barton, M.D.
PAIN IN FOREHEAD AND
CHECKS.

Perhaps you have had a slight cold sometimes, with considerable pain in the forehead and considerable discharge from the nose.

Now after the 'cold' was gone you still had the pain and discharge from the nose. When you woke in the morning there was some soreness at the back of the throat which you expected.

Perhaps after every slight cold you have had the same symptoms. Headache, and discharge from the nose, lasting for weeks.

Many people have a more severe form with great pain and prostration. What's the trouble?

Well, abolishing your nose are little by little cavities, which form a sort of winding box for the voice, and also help to maintain the air going into the lungs. These cavities or sinuses, as they are called, are situated in the forehead above the nose, and also above the eyes, and in upper part of cheek.

It appears that the ordinary cold may, cold sometimes, extend into these sinuses and set up the pain and inflammation which form the discharge from the nose.

This isn't usually serious, but when the Pits or other severe infection pass into these places, considerable damage is done. Not only is the pain severe, but the inflammation, set up forms a pus, which is liable to infect other parts of the body.

Perhaps most of this you will be liable to through the nose, but in some cases it gets from the back of the throat into the middle ear and sets up a severe infection.

Sometimes it extends into the brain and sets up a meningitis, which is a most serious condition, which sometimes results in a dangerous condition for the patient.

For the purpose of the body as a whole, the eyes, the nose, the throat, the middle ear, and the brain, have been proved. And the treatment must be given.

AN UNSAVORY MESS

The arrest and imprisonment
 in court of one of the officers of the Home
 Bank of Canada is tangible proof
 that Premier Ferguson and Attorney
 General Hodge intend to make a
 man's conduct with their state
 statements prior to the publication
 of the Ontario's report. All of the
 officials of the bank are being
 treated in this manner.

While the report of Currier Bar-
 ber is not as explicit as could be de-
 sired, it is as voluminous, perhaps, as
 could be expected under the circum-
 stances. Surely, Mr. Barber has re-
 ceived a shocking state of affairs
 and it will be difficult to prove that
 no one is directly responsible for the
 enormous losses sustained.

It seems strange that men experi-
 encing the banking business should
 be so foolish as to believe that they
 placed in jeopardy in the manner im-
 plicated in the Currier's report. The
 prospect of a half million dollar loss
 to the bank is a very real one. The
 King-Scott Co., characterized as
 a "very baby" venture is disastrous,
 especially in view of the fact that
 the bank's activity in this case ap-
 pears to have been a "plunge" pure
 and simple.

Another questionable enterprise
 was the investment of a quarter of
 a million dollars in South African
 War Veterans' Bonds. These fami-
 liar with investments in this sort
 will appreciate the fact that this
 transaction certainly cannot be ac-
 cepted as a testimonial to the busi-
 ness acumen of the bank officials.

The institution reported Sir Hen-
 ry Pellet's real estate investments to
 the extent of \$75,000 and the value
 of this claim to the creditors of the
 bank is listed as "prejudicial." Al-
 though it is a fact that the bank
 will be thoroughly investigated in
 that made to the late Brigadier-General
 Mann and Colonel Mann, as well
 as those who were associated with
 the management of the institution.

The Currier refers to loans made
 to companies in which directors of
 the bank were interested.
 Altogether, this phase of the al-
 ligation is so meagre to justify further
 report. Yet the charge for the
 reports were made to the Govern-
 ment concerning the bank's transac-
 tions apparently compounds the al-
 leged offenses.

It appears evident that the losses
 will exceed \$1,000,000. With total
 liabilities amounting to \$18,665,075
 and total assets at \$18,460,000, a de-
 ficit of \$205,075 is left. But add-
 ing to this some \$2,000,000, which
 represents losses in capital and other
 items, a total deficit of \$2,205,075
 is reached. Depreciation of "book
 assets" may increase this figure by
 more than \$1,000,000.

The sum of \$2,882,888 will be re-
 quired to pay creditors 25 per cent
 on the dollar, hence the readily avail-
 able assets are \$1,185,635 less than
 the sum required. Unless the de-
 ficiency is realized from the new se-
 curities the shareholders will not only
 lose the \$2,000,000 they have invested
 in the bank, but will be forced to
 pay up to \$250,000 more under the
 double liability provision.
 As the Attorney-General says, "It
 is a pretty mess" and those who have

Consider The Makers of

The Brunswick

—A BRUNSWICK—

THE Brunswick Radio Collection Company of Canada, Limited, makers of the Brunswick Phonograph, have now completed the largest musical instrument plant in the world, which they have built at a cost of over \$1,000,000. This factory is now ready to turn out 100 Brunswick Phonographs a day. These instruments are made of the finest materials, and are guaranteed to give the most perfect reproduction of any record. They are also guaranteed to be free from all defects, and to be of the highest quality. The Brunswick Phonograph is the only one of its kind in the world, and is the only one that can be guaranteed to give the most perfect reproduction of any record. It is the only one that is made in Canada, and is the only one that is made by hand. The Brunswick Phonograph is the only one that is made in Canada, and is the only one that is made by hand. The Brunswick Phonograph is the only one that is made in Canada, and is the only one that is made by hand.

Supreme Court Holds Woman Did Not Have Possession of Money Involved

CASE, LONG ONE

History of Former Thomas-Burg Family Interests in Court Action

Justice was given in the suit of Perry v. Perry on Wednesday last, which was of great interest to many people in this country.

About twenty years ago Robert Scott Perry was residing with his wife, Mary E. Perry and family at Thorncliffe, Ont. Perry carried on the business of a butcher and his wife was a dressmaker. They had a family of eight children, and about that time, with a general failure in the business was not sufficient to maintain them properly. Mr. Perry was then taken sick and died and laboring being in great demand, obtained good money for his services. He then went to live in a small house in the West End of Toronto, and he and his wife lived there until he died. His wife, Mary E. Perry, was then living in the West End of Toronto and he was not able to return home.

His wife brought an action against him for alimony and Mr. Perry being the judgment was given against her for alimony for \$100 a month.

Mr. Perry's second conviction, and the fact that his property was not returned and moved to Toronto. Mr. Perry's second conviction was for a crime and he was sentenced to the penitentiary for a term of six months.

MOVEMENT SOON TO BE LAUNCHED

Women Workers Declare Representation in Council is Sorely Needed

CANDIDATES NEEDED

Mayor Bennett Approves of Proposal—Will Vote for Woman

A movement on foot among women voters of the city to place a woman candidate for the City Council is reported to be gaining momentum.

Proponents of the plan declare that there is a " crying need " for at least one woman on the Council.

No organization for the purpose of supporting a candidate has yet been effected and no women have allowed their names to be publicly linked with the matter, but there is said to be considerable agitation in certain circles where women congregate and a vigorous campaign is predicted.

The field is being scanned for a likely candidate, and there will be several excellent prospects.

Mr. A. McFay, who is a member of the Board of Education, declared today that the cause of women's suffrage is a noble cause and that a woman should be elected to the City Council.

Society Feud Cause of American Revolution, is Theory of Educationist

Head of Queen's University History Department Strongly Endorses U.E.L. Celebration Plans at Rotarian Dinner—Urges Individualism, Members and Ladies Pledge at Gay Affair

The teaching of history in the schools of Belleville and this section of Ontario will pass as a result of the 16th anniversary celebration of the settlement of this district by Loyalists in the fall of this year.

The speaker, being a historian, is deeply interested in the U.E.L. celebration of 1923, and he stated that historic Ontario had no little to offer to the world.

He also stated that many of the children who are at night school are of the age of 16 to 18 years, and that it is necessary for them to be in the night school to learn to read.

C.N.R. Makes Good Showing

Ottawa, Oct. 8.—A net operating revenue of \$13,400,400 was earned by the Canadian National Railway in the seven months ending July 31 of the present year. This contrasts favorably with a similar period a year ago when the result of a similar month's operation was a net deficit of \$2,300,000. During the seven months of the present year Canadian lines showed a net deficit of \$2,300,000, but this was turned into a surplus by the net revenue of United States lines of the system which amounted to \$3,317,200.

The total operating revenue on Canadian lines of the National system during the seven months was \$115,372,000 and in United States lines, \$10,400,000, making a total gross operating revenue of \$125,772,000. Operating expenses totalled \$114,372,000, making up \$11,400,000 on Canadian lines and \$17,500,000 on United States lines.

During the same seven month period, the net operating revenue on the Canadian Pacific line was \$10,141,900 as compared with \$11,260,000 in 1922. Gross operating revenue amounted to \$46,207,500, and operating expenses to \$35,066,200. Net operating revenue on all railways totalled \$11,260,000, being the difference between gross revenue of \$24,126,000 and expenses of \$12,866,000.

For the month of July alone, the Canadian National earned a net operating revenue of \$1,761,300, as against a deficit of \$57,700 last year, reducing the operating ratio from 100.25 per cent. to 86.70 per cent. Revenue freight traffic increased 10 per cent., increasing freight revenue by \$10,041,700. Passenger traffic increased 10 per cent., resulting in an increase of \$500,000 in revenue. The Canadian Pacific showed an increase in freight traffic of 15 per cent., but only 15 per cent. of \$1,260,000 on freight revenue.

Liquidator for Bank is Named

Toronto, Oct. 8.—Gerrit F. Clark, who was named by Mr. Justice of the Supreme Court in the bankruptcy case of Ontario Bank yesterday as interim liquidator of the Home Bank of Canada, held a meeting of the shareholders and the company was to be held at the Hotel Hamilton, Toronto, on Wednesday, December 1. All creditors must attend this meeting of their clients, a week before the

date. Mr. Clarkson is to be chairman of both the creditors' and the shareholders' meeting.

The judge directed that L. E. Wolton, the liquidator, who has been acting as secretary and counsel for the Depositors' Association should be associated with Mr. Clarkson. Mr. A. B. Barker, curator of the Home Bank, is also to retain his connection with the bank's affairs by assisting Mr. Clarkson.

The winding up order was based on the resolution of the Home Bank directors, admitting liability, as well as on the petition of a number of creditors.

After the meeting of creditors and shareholders have been held a permanent liquidator will be named by the court. In all probability Mr. Clarkson will continue at the task. It was at first suggested that the meetings should be held on November 15, but the judge said that nothing would be gained by hurrying too fast for it was better to make sure that due notice would be given to all creditors.

Mr. C. H. O'Rourke, counsel for the creditors, said that direction he gave for the interim liquidator to begin at once on the preparation of a list of contributors, and that was done.

Discussion as to who should be appointed to the meetings to be held in the future was held by the judge. Mr. Barker said that provision should be made for the shareholders to be present. "In the merchants bank case they tried to keep the counsel and the press out," said A. B. Barker, who appeared for certain depositors. "We do not want that to happen in this case."

"I think that is a simple question," said the judge. "Anyone having a stake from a shareholder or a creditor should be admitted to their respective meetings."

HARVEST FESTIVAL AT POINT ANN

The annual Harvest Festival Service was held in St. John's Church, Point Ann on Sunday last. The Rev. Dr. Owen presided, the service being owing to the absence of the Rev. Dr. H. B. Irwin. Mr. Owen conducted the service and the singing was very good. Bright chrysanthemums were used by the congregation and the service was a most successful one for the occasion.

Mr. Owen closed his text by the words of the fifth chapter of First Thessalonians: "In every trial, your patience is to be tried. It is in Christ Jesus concerning you." The text of gratitude to the Lord for the Lord, for all our many blessings, both temporal and spiritual was presented by the Rev. Dr. Owen.

Canada Dollar 99 Cents in N.Y.

New York, Oct. 8.—The Canadian dollar was worth ninety-nine cents in New York yesterday for the first time since January 23. In the local exchange market Canadian money was quoted at one per cent. discount, marking a decline of one per cent. in one week.

Canadian banking men here attribute the firm tone of Canadian exchange policy to the arrangement of financing for the big fall movement of Canadian wheat. Exchange interests to take care of transportation for Canada wheat during the next two months are being purchased freely and this has tended to bring down the rate 100/8. Another factor affecting the market was the successful financing of the Canadian government's \$200,000,000 loan. This has had a sentimental effect upon the market and has served to fill in the downward movement.

"The ship" this year was recorded on July 18, when the Canadian dollar was quoted at 7 1/4 per cent. discount.

International Policies, Theme

London, Oct. 8.—S. P. McKerrin in his speech to the Imperial conference yesterday morning, it is understood, indicated the operations of international relations among the three nations. Canada and the United States in which Canada was primarily interested.

He mentioned developments at the formation of the international waterways commission and from the fact of the wider question of a general international policy. He mentioned the importance of the parliament of the dominions in determining the action of the dominions.

Premier B. M. Bruce, of Australia, and Premier W. M. Hughes, of New Zealand, followed McKerrin in his address, the conference which will last till Friday.

Following the morning's sitting the conference will adjourn until tomorrow when the names of the speakers and address will be announced. Premier Bland will officially welcome Premier Bruce and Sir Lester Bowden, Canadian Minister of Finance, to the conference. There was a further indication that it was worthwhile if the speech of the Dominion premiers would be made available to the press in full, although the matter was not yet definitely decided.

POSTAGE STAMP SALES INCREASE

Revenue of Post Office Not Affected by New Ruling
Excise Stamps Not Sold at Postoffice to Avoid Confusion

Local banks report a slight increase in the sale of excise stamps in accordance with the new regulations which came into effect on October 1st, in introducing the new Federal excise stamps for cheques and receipts. Postage stamps are not recognized for excise, or cheques, and have not been since October 1st. The post office has been ordered to stop selling excise stamps, which cannot be purchased at the post office but can be secured at all banks and other offices of excise stamps. The banks formerly sold the ordinary excise stamps, but since the new stamps were issued (excise) and the post office has been ordered to stop selling excise stamps, the banks have been ordered to stop selling excise stamps.

"WHAT'S WOMEN WITH" THE WOMEN ANSWERED AT GRIFPIN'S TONIGHT

The storm tactics of the women, ranging from the darts of the human eye, to the slings of Daniel Cramer Goodman's powerful dramatic and scenic play, "What's Women With?" which is being re-submitted for the last time at Griffin's tonight.

Mr. Goodman employs real char-

acters of flesh and blood to tell his amazing story on the screen but before he laid out the battle of the sexes, he laid out the battle of the sexes as a woman's play, for the women of which great men have been vainly craving for centuries.

"What's Women With?" is not unlike "Womanhood." It is not a novel or a romance or a play, but it is a play, and it is a play that tells the modern woman in all her strength and weakness and shows by means of a tremendously dramatic human story how women, in the

past, have been treated. It is a play that tells the modern woman in all her strength and weakness and shows by means of a tremendously dramatic human story how women, in the

MAJORS MAY CHANGE PITCHERS' RULES

Several National League club owners have expressed their approval of this suggestion as they agree that pitchers have imposed upon them too much of a handicap and that the resultant hitting is hurting the game.

Soon after the present rules became effective it was realized that the obligation of handling a brand new ball without violating the rule was decreasing the effectiveness of pitchers and the umpires were instructed to remove as much gloss as possible from the balls before they were put in play.

So many balls were thrown out of play that the club owners in looking over the increase in their ex-

Noted artists, famous moving picture directors and
Nasport scenic photographers, like thousands of
 the nation's artists, are flocking to the scenic
 beauties of Banff and the Canadian Pacific Rockies.
 Artists in increasing numbers each year spend the sum-
 mer months in the Canadian Rockies, and the scenic
 beauties to canvas. For seventeen years Kai Iurgius,
 celebrated painter of wild animals in their native haunts,
 has been a regular visitor to Banff. "I have lived more
 of the past year and has built his own bungalow and
 studio. In 1921 Iurgius won the \$1,000 Almont prize,
 and he is now a resident of the town of Banff. The
 National Academy of Design bought the painting for
 \$1,000 and it now hangs in the Corcoran Art gallery
 in Washington."

Belmore Browne, artist, author, explorer and conqueror
 of the Canadian Rockies, is another of the artists who
 have found their way to the Canadian Rockies. He
 has been a resident of Banff for several years and has
 painted many of the scenic beauties of the Canadian
 Rockies. He has also written many books and articles
 about the Canadian Rockies and has been a lecturer
 on the subject of the Canadian Rockies. He has also
 been a member of the National Academy of Design and
 the National Academy of Sciences.

THE DUMBELLS IN

"CHEZIO" HERE NEXT

THURSDAY AND FRIDAY

The Dumbls Company, Limited will offer Capt. Plunkett's fifth annual street scene in "Chezio," a limited engagement of two nights at Griffith's next Thursday and Friday, October 18th and 19th.

The company is still headed by the famous Canadian star, Ross Hutton and Al. Frankel, while a third star has been added to the constellation in the person of John Hagan known to every returned soldier as the famous comedian of the "Joe Fox's and familiar to all who read the English illustrated magazines and stage publications as the principal comedian of the Daily Theatre productions since the late 18th century. His latest bit being in "The Lady Of The House" and "Whitely Into Happiness."

Of all the actors brought out in the national concert parties in France Hagan was the one who landed first and highest in the field of professional theatricians.

True, he was a professional before the war, having appeared in many New York reviews. In fact he gave up a splendid engagement on Broadway to join the C.R.F. away back in '14. Three years in France and elsewhere served in his art and broadened his experience. It has been said that he is a really great comedian one must first learn to appreciate him. John Hagan is qualified. He will prove an outstanding addition to Canada's greatest solo artist show.

All the favorites of the "Cerry On" cast now playing in "Chezio." Stan. Bennett has been given a leading part in the comedy while Pat Rafferty, T. J. Lilly, Ben Allen and Jack Greco are better than ever. Captain Plunkett stated the last time he was here that he intended to make this season's revue just a bit better in every way than any of his former "Dumbells" productions. "Chezio" seems to have lived up to that promise. The excellent Captain Plunkett, and his top-notch Overseas Orchestra, add the final touch of perfection in entertainment value.

"DOWN TO THE SEA IN SHIPS" ONE OF YEAR'S SCREEN SENSATIONS

One of the biggest and most sensational facts ever recorded by a motion picture camera can be found in Edward Gifford's "Down to the Sea in Ships," the feature attraction at Griffith's this Monday, Tuesday and Wednesday.

This scene shows where Raymond McKee, who plays the leading male role in this production, harpoons a 70-lb whale, and later the monster of the deep turns upon the small boat and capsizes the occupants into the water, smothering the boat to landing.

When Mr. Gifford decided on putting a last tribute to the now almost forgotten whaling industry, by filming the actual harpooning of a whale, he planned to photograph the real stuff. As a result, Mr. McKee was forced to sign ship's papers and equip a regular whaler. This particular scene, it is said, shows the small boat being torn at express train speed through the water by the angry whale. It then shows the whale make a turn and charge the boat. Critics and experts have said whenever this production has been shown that this thrill is one of the biggest sensations ever seen upon the screen. It plainly shows Raymond McKee risking his life and limb in the taking of these realistic scenes.

Senior Professor Lewis confirms that Belleville screen fans will find this scene thrilling in every detail, and recommends "Down to the Sea in Ships" as one of the best and most interesting photographs of the year.

Authentic pictures of the Japanese earthquake, the most destructive earthquake in the memory of man, a good Christie comedy, and Reginald Denry in Round Four "The New Leather Pants," complete the best of the best program seen here in recent times, and on doubt the popular playhouse will be favored with large patronage during its exhibition.

"WHEN KNIGHTHOOD WAS IN FLOWERS" AT GRIFFITH'S TODAY

"When Knighthood was in Flowers," a Paramount-Competition 15 reel production starring Douglas Fairbanks and Fanny Steiner is the feature offering at Griffith's today, nation and night. The story pictures in palatial life and action the greatest royal love narrative in English history. Shakespeare probably knew the romance of Mary Tudor, but as she was an anti of Queen Elizabeth, he did not dare immortalize her use of the historic drama. The task remained for an American author of modern times, Charles Major. From his exhaustive studies of English history he resurrected this huge old period anglicized to re-

The Letter Box

NATIONAL GOLD COMPANY
BANK, LONDON

My dear Sir: I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the purchase of gold bars for the purpose of making a loan of \$100,000.00 to the Government of Canada. I am sorry to hear that the Government of Canada is not in a position to make such a loan at this time. I am, however, sure that the Government of Canada will be able to make such a loan at a later date. I am, therefore, sorry to hear that the Government of Canada is not in a position to make such a loan at this time. I am, however, sure that the Government of Canada will be able to make such a loan at a later date.

are not only full but even actually refuse. The Government's refusal is partially strategic, made and commensurate. The intention would indeed be glorified if we had to rely upon such trivial make shifts to avoid financial disaster, but we have at hand, a source of revenue which, if carefully handled, will lift us out of the "blough of ignorance" in the present financial straits. I refer to the undeveloped wealth in our gold fields.

We may or may not agree with the

general principle of public ownership as a new era for financial life, but the principle of acquiring the nationalization of our gold fields as the only means of securing adequate revenue for the proper development of the country is a principle that should not be gone into here, but the general principle of public ownership of the gold fields is a principle that should not be gone into here.

Details need not be gone into here, but the general principle of public ownership of the gold fields is a principle that should not be gone into here. The principle of public ownership of the gold fields is a principle that should not be gone into here.

At Princeton, with Ben Hamilton and thirty-three Canadian soldiers, and seven American soldiers, were captured in Captain Phillips' Fifth Annual Review, "Chester".

Gifts of the night and Friday night

concentrate three inches thick and laid on top of the ground taking care to have the ground properly levelled. This was just as satisfactory. I had a walk of natural stone made over the south side of my residence and there is still the old Angel Gabriel here in the form of a statue, so having or creating what I want.

I have travelled considerably in the U. S. and I noticed in small cities and towns the same wells and roads on the same business streets are permanently paved but in the residential parts they are not. I do not believe in gravel and macadam roads. I do not believe in gravel and macadam roads. I do not believe in gravel and macadam roads.

To the United States who always fear

disaster in financial paths it is

noted that the Canadian Government

would run no risk as it would give

the business and would not give

side capital for developing its mines.

Indeed the only possible reason for this

is that the Canadian Government

is not in a position to make such a

loan at this time. I am, however, sure

that the Government of Canada will be

"Doc" Cook of North Pole Fame on Trial on Charges of Fraud

Port Worth, Texas, Oct. 17 (United Press).—Dr. Frederick A. Cook, who won fame as the first man to reach the North Pole, was indicted today on charges of fraud.

With him, twenty-one of his alleged associates, the promoters of the Petrelmen's Expedition, were indicted today on charges of fraud.

Cook and a few others are expected to plead not guilty. But they charged according to statements by his attorneys that the Government's prosecution of him was inspired by his ill interests of the country.

The trial will be presided over by Judge John N. Kilham of Toledo, Ohio, especially assigned here for this and other trial cases.

Cook's chief counsel will be former United States Senator Joseph Woodruff. The number of witnesses to be called will be greater, according to reports of the court.

Cook has been in the oil promotion business here for four years. He supported last Summer, when the First oil Department was organized, a "readiness" against him, hating him because of the mail.

It was in November, 1908, that Cook became internationally famous, when he claimed to have discovered the North Pole.

Dr. C. C. Clark, M. A. B. Rector of Ohio State University, and formerly of the University of Michigan, was called to the stand, where he testified that he had been in the Arctic region with Cook.

Among those from out of town who testified were Dr. C. C. Clark, M. A. B. Rector of Ohio State University, and formerly of the University of Michigan, was called to the stand, where he testified that he had been in the Arctic region with Cook.

The trial will be presided over by Judge John N. Kilham of Toledo, Ohio, especially assigned here for this and other trial cases.

Cook and a few others are expected to plead not guilty. But they charged according to statements by his attorneys that the Government's prosecution of him was inspired by his ill interests of the country.

mark, with the assertion he had found the North Pole. The new discovery was made by a certain expedition, but he was branded by various scientific bodies as a faker. Now the Government is taking him with him to the North Pole, in the sale of a half a million dollars' worth of stock in a people through out the country.

Italy has very little agricultural land. When the last of remaining 150,000 hectares of marshy lands is reclaimed, Italy will have provided a homestead for only about 100,000 more families. After that a formidable problem will confront the country. Where will the surplus population go? Europe can absorb very

France's Real Aim Is To Destroy Germany

English Publicist Denounces Both France and Great Britain for Ruhr Invasion—Proves Charges of Greedy, He Says

By SIR CHARLES ROSS, Bart. (Copyright, 1923 by the United Press.)

THE OUTLOOK. London.

London, Oct. 19 (United Press).—With words of lightning, the French press has sought to create greater confusion over the collapse of Germany's passive resistance.

It was told in the longest of yips that "France has won." What? Jan. 11, he told us, to reject reparations from a defeated Germany. There had been no delivery of small percentages of coal, and Germany had not put out her cash payments due under the 1921 schedule, which called for a total indemnity of 6,600 million pounds.

The German text this movement by passive resistance, and the whole resources of the Reich for more than eight months were thrown into confusion and maintaining the opposition to the invader. The end has come only because, as it was bound to happen, Germany ceased to help itself. Having fought until the complete collapse of her currency, if not of her entire economic system, Germany submitted. This submission comes in stopping the latter if bloodless war in the Ruhr, not in delivering order or cash.

THE FRENCH "VICTORY"

Having won, to this extent, wherein does the position of France differ from

that on Jan. 11? It differs notably. On that date M. Poincaré was demanding the full execution of the 1921 schedule of reparations. He was demanding to consider Herr Brüning's plan, which the Reich was to pay a total of 6,600 million pounds, or in disburse M. Poincaré's scheme. During the Ruhr campaign, Germany's ability to pay reparations had steadily declined, as the total French demands have been rising.

At present M. Poincaré is willing to take a set of 20 million gold marks, and suggests that the other allies will waive their claims for payment of currency or friendly debts. The German payments would not exceed 2,000 million pounds, which Brüning had suggested in January. Viewed in this light, the French "victory" is seen for what it is—of the most insignificant exhibition of fully which any nation ever perpetrated.

Germany "surrendered" to Germany does not say. M. Poincaré now claims that he has created "his will to pay." It is little to add to the old claim, that he has destroyed the ability to pay.

TO DESTROY GERMANY

If France has sought reparations there she has not won, but lost. But it was indeed reparations that led France into the Ruhr? The real motive underlying this invasion was not to obtain cash, but to destroy Germany. If this be assumed, submission in France may appear less ludicrous. If the French feel that the destruction by force in peace time of a great nation is less than their "dignity," they are naturally pleased with the results they obtain.

While we watch for what the Fate has in store for Germany, we cannot ignore the question of Great Britain in this matter. Has she been a party to the invasion? We are told that in 1914 she was a party to the invasion. We are told that in 1914 she was a party to the invasion. We are told that in 1914 she was a party to the invasion.

Cheap Electric Lamps

Is an electric lamp cheap because you can buy a dozen for the price of a High Quality Lamp?

Experience tells us that lamps which give efficient lighting service and long-life are really the cheapest lamps to buy. Remember! The cost of lighting the home is the cost of current plus the cost of Lamp renewal.

HYDRO LAMPS
the LONG LIFE LAMPS—combine efficiency and long life in the most economical way possible and when in the final analysis the cost is considered users of Hydro Lamps are better off in the long run because renewals are reduced to a minimum.

FRANCE IS CRITICAL OF U.S. PROPOSAL TO AID IN SETTLEMENT

PRIME MINISTER WARNS POINCARÉ TO 'THINK THRICE'

(United States Deposit)

Paris, Oct. 26.—France will accept the proposal of Secretary Hughes for settlement of the question of German Reparations by a commission of experts only if such a commission is designated by the reparations commission. It was learned from semi-official sources here today.

Berlin, Oct. 26.—America's offer to participate in the Imperial inquiry into Germany's capacity to pay reparations is met with indifference from Chancellor Stresemann. The German Ministry will abide by the results of such an examination.

Washington, Oct. 26.—In response to an official inquiry by the British Legation in Washington, the State Department has advised that the British Legation in Washington, Oct. 26.—The British Prime Minister, speaking here last night before the 5,000 delegates of the Conservative Party conference, declared that the British Government would not drift but would seek leading places in the reconstruction of Europe.

Says Versailles Pact Is Not Peace Treaty

United Press Despatch, Exclusive
Washington, Oct. 20.—The United States government today declared that the Versailles Treaty was no peace treaty and that France was not bound by it.

Berlin, Oct. 20.—Declaring that the Versailles Treaty was "no peace treaty and that France was not bound by it," Adolf Hitler today said at a public meeting in Berlin.

Stroemman's speech at Hagaz last night told representatives of the Reichstag that Germany had accepted the Versailles Treaty as a preliminary step toward making peace.

He said that Germany would participate in a conference for a settlement of the German reparations question.

POSITION GRABER

Declaring the coalition was "grave."

in the plan and participate in the conference. If France or any other interested power should not approve of the project of a reparations survey by an economic conference, and refuse to participate, the United States and vital interests of the United States

would determine whether it would permit policy only after mature deliberation.

The offer made officially in response to a telegram from Lord Curzon emphasized the following points:

CAPACITY TO PAY

"Firstly, Germany was not in a position to pay the reparations," said by the Secretary of State in his statement of last December, to which you refer the Government of the United States. The Government of Germany relieved of her responsibility for the reparations to be paid to her, if for no other reason than because of the condition of the international debt, which would be a burden on the United States has consistently maintained the essential difference between the capacity to pay and the capacity to pay. Germany's capacity to pay is a function of the ability of methods to secure the reparations payments from Germany, and payments from Germany to the United States, which constitutes distinct obligations.

EXCHANGE VIEWS

The Premier declared that the amount of Germany's reparations must be ascertained in the light of her present position.

We have a definite policy in regard to the reparations to be paid to Germany, the security of our country, and the fulfillment by Germany of her obligations to the world.

We know what our policy is. The statement on the statement, nor is it. Not. But higher than the need of a policy, the need of a policy, the common action and carry out the policy in effect.

The Premier declared that the amount of Germany's reparations must be ascertained in the light of her present position.

for the war or for her just obligations. There should be no ground for the impression that a London conference, if called, should have any such aim, or that resistance to the fulfilment of Germany's obligations has any support. It should be evident that any such attempt would be a

only the United States can bring about the solution of Europe's problems.

Lord George declined however to comment on the Hughes note.

As a confirmation of the attitude of the ex-embassy in London to the United States to take a strong lead in European affairs, the American legation in London is reported to have

STANDARDIZATION GREAT NEED AT GENERAL HOSPITAL HERE ANNUAL REPORTS INDICATE

Standardization of hospital service is the Women's Christian Association is the report of the General Hospital Board submitted by the chairman, Mrs. F. W. Hill, at the regular annual meeting of the association held the second day of the C.O. building yesterday afternoon.

One important phase of standardization is registration of nurses. Mrs. Hill reported that in order to prepare nurses for registration the local institution had affiliated with others in special training courses. Since January special nurses for the General Hospital have entered a Maternal Hospital for the necessary training.

Mrs. F. W. Hill was re-elected president of the Association yesterday and a number of the other officers were re-elected.

"The teaching in small hospitals is inadequate compared with larger hospitals," said Mrs. Hill, "and another fact is that the average number of patients per day is not enough to cover a three years' course of nursing. Accordingly we have entered affiliating for three months in Children's diseases and two months in contagious diseases."

Explaining that eight nurses had entered a Maternal Hospital for necessary training to comply with the requirements, Mrs. Hill stated that the General Hospital \$1000 per year. The Association has changed the General Hospital, the House for Aged and Children's Hospital, and the House for the Sick.

It was the aim of the association to launch forth on such a big undertaking the chairman explained, "but they do not understand the need of the present, but they do not understand the need of the future."

Other reports reviewed an exceptional wide range of activities and performance of the association in administering the various welfare institutions of the city and community.

The details report as presented that 1923 ended with the association in the hospital during the year as follows:

Patients	41,230
Births	3,500
Deaths	3,200
Admissions	12,500
Discharges	10,000

Average per month 7,000. Total 82,981

DORCAS

The Dorcas report showed a number of patients having been made by several ladies, contributing to the department especially the St. Michael's Hospital and others have offered to new for the needy.

London, Eng., Oct. 30.—Following an attack of septic pneumonia, which set in yesterday, the Right Honorable Andrew Bonar Law, died here early to-day. He had returned recently from the south coast of England where he had gone in a vain search for health. The members of his family were present at the bedside.

SUCCEEDED LLOYD GEORGE

The Right Honorable Andrew Bonar Law served as Premier of Great Britain from November, 1922, until May, 1923. He assumed the Premiership upon the fall of Lloyd George from power and was called upon to accept the tremendous task of composing the Franco-British difficulty arising from the Ruhr.

FERGUSON WILL FIGHT REV. OF TAX ON INSULIN

Declares Dr. Ferguson Not Sold For Profit—Province

TO COST \$500,000
Dominion Imposes Sales Tax of Two and One-Quarter Per Cent

Toronto, Oct. 31.—Premier Ferguson has announced that the Ontario Government will hold a strong position in the coming fight on the two and one-quarter per cent tax on insulin by the Dominion Government. "Insulin," Premier Ferguson pointed out on receipt of the matter, "is not sold for profit, but is distributed at cost for the relief of the sick. The Government means nothing out of it. In fact, it will have a considerable sum each year because of the amount that is distributed free to those who are unable to pay for it. The free distribution cost the Province of \$1,000,000 in 1922, and \$1,500,000 this year."

Toronto, Oct. 31.—The Dominion Government, in its search for new revenue, has taken up insulin, the world-famous discovery of Dr. F. B. Dilling, which has been saving the lives of thousands of people in this country. Notes have been received by the Ontario Government from the King administration in Ottawa to the effect that insulin should be classified from the point of view of the Federal authorities, and that it will have to pay a sales tax in conformity with other commodities. "The laboratories in hitting out the insulin, hospital, and physician who are able to pay for it have not been asked to contribute. In consequence, they have received a ruling from the Federal authorities stating that insulin cannot be exempted from the tax and that it will be added to it until he added to the invoice."
